Contemporary Discussions in Health Communication	MED 3012	v	Elective	8	18	2
Faculty, the educational program and education level	Faculty of Medicine, one-cycle Educational Program "Medicine"					
Author (s)	Khatuna Katamadze – invited teacher Mob.tel.: 577 44 06 46; e-mail: khatunak@gmail.com <u>Ekaterine Pestvenidze</u> – invited teacher Mob.tel.: 591 20 60 30; e-mail: epestvenidze@yahoo.com Nino Lomia– invited teacher Mob.tel.: 595 19 70 55; e-mail: ninolomia@yahoo.com Consulting day and time - individually					
Educational course format	Lecture Work in Group					
Teaching and learning loading	Total: 60 hoursContact hours: 30 h, where:1. Lecture - 8 h2. Team work - 18 h3. Midterms - 2 h4. Final exam -2 hIndependent work - 30 h					
Prerequisites	No prerequisites					
The purpose (s) of tutorial course/modules	This course aims to develop an understanding of the importance of communication in different contexts for medicine students: with patients, their relatives and mas-media representatives.					
Teaching and learning methods	 Lecture - Face-to-Face - Direct verbal contact; Demonstration and visualization method, with practical examples supporting is necessary for efective study. During work in group will be used "role-playing games" around medical communication, the simulated cases will be played. the important part of this playind games will be devoted to non-verbal communication skills enhancement, including the study of body language and gestures. Discussion - students will be divided into two groups to discuss specific issues with the purpose to improve the following skills: listening, critical thinking, analysis, debate and exchange of point of views on the basis of conclusions skills development. 					

3012- Contemporary Discussions in Health Communication

	Consultation –individual support work with students (weekly)				
	Maximum score- 100, that includes:				
	1. Midterm assessment -60 scores:				
	• Attendance -10 scores;				
	• Activity – 10 scores:				
	• Discussion – 10 scores;				
	Role-playing games -10 score				
	Midterm Exam – 20 scores				
	The final score for Group work activity is calculated by the arithmetic average.				
	Group Work are Assessed Based on the Following Criteria (maximum 10scores)				
	10 scores- Student has been able to present complete and thorough knowledge of the subject, a				
	substantial amount of detailed and relevant information. Demonstrate considerable depth of				
	understanding of the studied main and additional literature. Bring forward a balanced view of the				
	main arguments on the issues.				
	9 scores - Student has been able to bring forward a consistent number of deductions on most of the				
	topics tackled. make very good comments on the different perspectives on most of the issues.				
	Demonstrates knowledge of the main readers.				
	8 scores - Student has been able to bring forward a consistent knowledge, Has properly developed				
	terminology. Demonstrates knowledge of the main readers.				
	7 scores - Student has been able to present some factual information sufficiently linked with the				
	topic. demonstrate a good understanding of the topics selected. make a good attempt to bring forward				
Assessment criteria	a balanced view of some arguments on the issues. Terminology is partially developed.				
	6 scores - Student has been able to make some good comments on the different perspectives on some				
	of the issues. Make poor deductions on most of the topics tackled. analyse some causes and results of				
	human interactivity related to the issues.				
	5 scores - Student has been able to demonstrate inconsistent comments on the different perspectives				
	on some of the issues. Terminology is partially developed. Present mediocre level of knowledge.				
	Make poor deductions.				
	4 scores - Student demonstrates general overview of the topics. Terminology is not developed. Information sufficiently linked with the topic. Demonstrate irrelevant understanding of the				
	literature.				
	3 scores – Student demonstrates general/superficial and inconsistent knowledge of the subject. No				
	sufficient knowledge of the literature.				
	2 scores - Student demonstrates general comments, no knowledge of the terminology, no consistency.				
	1 score – Student demonstrates insufficient answer, not terminology awareness, chronologic manner				
	of the answer, mostly wrong, no knowledge of literature.				
	0 score: Student demonstrates not even elementary knowledge of the topics.				
	Discussion assessment criteria (10 scores- max.)				
	1. Argumentativeness of represented factual material -2 scores;				
	2. Complexity of represented factual material -2 scores;				
	3. Discussion activity – 2 scores;				

5. Keeping within the time-limit – 2 scores. Role playing games (10 scores): Ability of noverbal communication – 4 scores; Ability of noverbal communication – 4 scores; Ability of knowledge applying for the medical problem decision- 2 scores; Midtern Exan – 20 scores (Written test -40 questions, 0,5 score for each) Minimal score of midtern assessment (for final exam) – is 11; to take in account that student will receive the maximum score at the final exam. Final Exam -40 Is held in the written test form (test consists of 80 questions, each question is rated as 0,5 score). The final exam would accounted as passed in case of maximum 70% or more (40X70 / 100 = 28 scores). Credit will be given to the student if he has collected at minimum 51 scores out of 100. The students' assessment has to be done in the following way: Positive rate: (A) Excellent- 91 or more scores; (B) Satisfactory-61-70 scores; (C) Good - 71-80 scores; (D) Satisfactory-61-70 scores; (E) Enough-51-60 scores, (PX) Failure - 41-50 scores, Negative rate: (PX) Failure - 41-50 scores, which means that a student needs to work more and an independent and condicable further work is required to pass the exam once again to be re-awarded; (P) Fail - 40 scores or less, which means that the student's diligence is not sufficient and student has to learn the subject all over again. The student can pass the		4. Debating and listening culture - 2 scores;			
Role playing games (10 scores): 1. Ability of verbal communication - 4 scores; 2. Ability of nonverbal communication - 4 scores; 3.
